ABOUT ME

Pre-final year B.Tech EXTC student with interests in software engineering, machine learning, and problem solving. Experienced in Python, C++, SQL development through academic projects and internships.

INTERNSHIP

Google AI-ML Internship (AICTE–EduSkills)

- Developed and trained ML models using Python.
- Worked on data cleaning, model training, and performance evaluation.

PROJECT

Bento – Smart Canteen Management System

Project Link: <https://drive.google.com/file/d/16nrrAnOTeACpbRB2xZOdDKIUVz6tt0y/view?>

Developed a Flutter-based smart canteen management system consisting of an Android application for users and a web dashboard for canteen staff, enabling real-time food ordering, order tracking, and menu management using Firebase.

Tech Stack: Flutter, Firebase and Android Studio

ACHIEVEMENT

- Google Cloud Study Jam 2025: Hands-on experience with cloud infrastructure and GenAI tools.
- Syrus '26 Hackathon: Selected among the Top 15 teams out of 40+ participating teams.

EDUCATION

B.Tech EXTC, VESIT Mumbai	CGPA: 8.84/10
SSC, PM Shri K.V. Bhandup	84%
HSC, PM Shri K.V. Bhandup	75%

TECHNICAL SKILLS

- Programming Languages:** C, C++, Python, SQL
- Frameworks:** Flutter, Firebase
- Machine Learning:** Classification Models, Data Preprocessing, Feature Scaling, Model Evaluation
- Tools:** Git, GitHub, Google Cloud, Android Studio
